The races that comprise this program were photographed by A NITE AT THE RACES, INC., during actual racing events.

For groups that prefer to test their handicapping ability by evaluating the form and consistency of each horse entered in a race, we also offer PAST PERFORMANCE PROGRAMS. Past Performance races are absolutely valid and authentic, having been taken from Official Race Track Programs prior to the running of each race event. The track announcer calls the horses by their actual names which will correspond to the entries shown on the PAST PERFORMANCE PROGRAM.

Our crew of specially trained cinematographers is constantly filming new races to enable us to meet the ever-increasing demand. This allows us to provide a constant supply of new races, not only for our standard format, as used with this program, but also for groups that specifically prefer the PAST PERFORMANCE PROGRAMS.

A computerized system guarantees that users will receive different races free of duplication for future orders.
